PROFILE SUMMARY

Java Backend Developer with 3.6 years of experience building and maintaining secure, scalable enterprise applications using Java, Spring Boot, and RESTful APIs. Strong expertise in backend development, legacy system enhancement, authentication mechanisms, and full SDLC execution. Proven ability to collaborate with business analysts and cross-functional teams across banking, financial services, and healthcare domains.

TECHNICAL SKILLS

Primary Skills: Java, Spring Boot, Spring Security, Spring Data JPA, Hibernate, JDBC, RESTful APIs, Microservices, Lombok, JUnit, Mockito, MySQL, LDAP

Secondary Skills: HTML, CSS, JavaScript, Angular, Thymeleaf, AWS, OpenShift, Docker

Tools & Platforms: IntelliJ IDEA, VS Code, Maven, Git, Postman, JIRA, SQL Developer, GitHub Copilot

PROFESSIONAL EXPERIENCE

Associate Consultant

Infosys Limited | Kolkata, India — August 2024 – Present

- Designed, developed, and enhanced RESTful APIs using Java and Spring Boot to support enterprise banking and financial workflows.
- Collaborated closely with business analysts and stakeholders to understand new requirements, feature enhancements, and ensure continuous delivery.
- Worked extensively on legacy system maintenance, resolving defects, improving application stability, and supporting post-production issues.
- Implemented secure authentication and authorization using LDAP and Spring Security, while contributing to UI enhancements using Thymeleaf and Angular.

Programmer Analyst

Cognizant Technology Solutions | Kolkata, India — July 2022 – July 2024

- Developed and enhanced backend services using Spring Boot and RESTful APIs, improving application scalability and maintainability.
- Created and executed unit and integration test cases using JUnit and Mockito, reducing regression issues and improving code quality.
- Contributed to UI development by building reusable components and supporting frontend–backend integration as required.
- Participated in Agile sprint activities, managing version control with Git and supporting debugging, testing, and deployment for timely delivery.

PROJECT EXPERIENCE

Credit Card Customer Care Application - Global financial services and technology provider

- Worked on an enterprise banking customer care application used by multiple banks across EMEA and APAC regions.
- Implemented business role management and function-level configuration for users, enabling Maker–Checker (user–manager) approval workflows.
- Designed and implemented RESTful APIs using Java, Spring, JDBC, and SQL, collaborating with business analysts to deliver new requirements and enhance existing features.
- Enhanced and stabilized a legacy system by resolving defects and contributing to UI enhancements using Angular.

Customizable Paystub Application - Global financial services and technology provider

- Redesigned and developed a customizable Paystub application as part of a legacy system migration using Spring Boot microservices.
- Implemented multi-organizational support with data persistence using Spring Data JPA and Hibernate.
- Developed secure admin and user portals using Thymeleaf, enforcing authentication and authorization with Spring Security.
- Supported configuration management and user access workflows to improve system usability and flexibility.

Healthcare Claim Settlement Portal - U.S.-based financial wellness and healthcare provider

- Developed a digital portal to automate healthcare claim settlement workflows using Spring Boot REST APIs.
- Built responsive frontend components and supported seamless frontend–backend integration.
- Consolidated Health Savings and reimbursement account data into a unified interface for claim submission and tracking.
- Ensured reliable data persistence and transaction handling using Spring Data JPA and Hibernate.

EDUCATION

Bachelor of Technology – Computer Science Engineering — August 2018 – June 2022
Bengal Institute of Technology (Techno India), Kolkata
CGPA: 9.16

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Spring Security Fundamentals – Udemy

KEY ACHIEVEMENTS

- Infosys Insta Award – Recognized for effective execution and critical support on a client project.
- Client Appreciation Certificate – Awarded for timely delivery and strong collaboration during a high-priority project phase.
